Selected Scholarly Contributions [Data Provided by SCOPUS]

Statistical Analysis of Textural Features for Improved Classification of Oral Histopathological Images
Journal of Medical Systems, pp. 1-17, 2010. Article in Press.

Quasi-periodic route to chaos in load resonant DC-DC converters
Proceedings of the IEEE International Conference on Industrial Technology, pp. 807-812, 2010.

Automated characterization of sub-epithelial connective tissue cells of normal oral mucosa: Bayesian approach
TechSym 2010 - Proceedings of the 2010 IEEE Students' Technology Symposium, pp. 44-48, 2010.

Statistical pattern analysis of white blood cell nuclei morphometry
TechSym 2010 - Proceedings of the 2010 IEEE Students' Technology Symposium, pp. 59-66, 2010.

Automated Screening of Arrhythmia Using Wavelet Based Machine Learning Techniques
Journal of Medical Systems, pp. 1-12, 2010. Article in Press.

A new instantaneous reactive power based MRAS for sensorless induction motor drive
Simulation Modelling Practice and Theory, 2010. Article in Press.

Structural markers for normal oral mucosa and oral sub-mucous fibrosis
Micron, 41 (4), pp. 312-320, 2010.

Automated leukocyte recognition using fuzzy divergence
Micron, 2010. Article in Press.

Grid-connected vector-controlled slip-ring induction machine drive with out speed sensor
Simulation Modelling Practice and Theory, 2010. Article in Press.

An alternative adaptation mechanism for model reference adaptive system based sensorless induction motor drive
Electric Power Components and Systems, 38 (6), pp. 710-736, 2010.

Effect of AEE788 and/or Celecoxib on colon cancer cell morphology using advanced microscopic techniques
Micron, 41 (3), pp. 247-256, 2010.

Statistical analysis of mammographic features and its classification using support vector machine
Expert Systems with Applications, 37 (1), pp. 470-478, 2010.

Sensorless control of grid-connected doubly-fed slip-ring induction motor drive
IECON Proceedings (Industrial Electronics Conference), pp. 1276-1281, 2009.

Ichnology of a Late Palaeozoic ice-marginal shallow marine succession: Talchir Formation, Satpura Gondwana basin, central India
Palaeogeography, Palaeoclimatology, Palaeoecology, 283 (1-2), pp. 28-45, 2009.

Automated classification of cells in sub-epithelial connective tissue of oral sub-mucous fibrosis-An SVM based approach
Computers in Biology and Medicine, 39 (12), pp. 1096-1104, 2009.

A reduced switch transformer-less dual hybrid active power filter
IECON Proceedings (Industrial Electronics Conference), pp. 88-93, 2009.

An integrated ECG feature extraction scheme using PCA and wavelet transform

Proceedings of INDICON 2009 - An IEEE India Council Conference, 2009.

Probabilistic prediction of cancer using nuclei morphometry
Proceedings of INDICON 2009 - An IEEE India Council Conference, 2009.

A two-stage mechanism for registration and classification of ECG using Gaussian mixture model
Pattern Recognition, 42 (11), pp. 2979-2988, 2009.

Shunt compensation: Reviewing traditional methods of reference current generation
IEEE Industrial Electronics Magazine, 3 (3), pp. 38-49, 2009.

Guest editorial
IEEE Transactions on Industrial Electronics, 56 (10), pp. 4141-4142, 2009.

Numerical estimation of the initial hinge-line irregularity required for the development of sheath folds: A pure shear model
Journal of Structural Geology, 31 (10), pp. 1161-1173, 2009.

Harmonic elimination and reactive power compensation through a shunt active power filter by twin neural networks with predictive and adaptive properties
Proceedings of the IEEE International Conference on Industrial Technology, 2009.

Adaline controlled 3-phase 3-wire shunt active power filter with enhanced performance using the capacitor voltage feedback
Proceedings of the IEEE International Conference on Industrial Technology, 2009.

Experimental validation of very-low and zero speed operation of a flux-eliminated adaptive estimator for vector controlled IM drive
Proceedings of the IEEE International Conference on Industrial Technology, 2009.

Formation of Riedel shear fractures in granular materials: Findings from analogue shear experiments and theoretical analyses
Tectonophysics, 471 (3-4), pp. 253-259, 2009.

Dynamic performance of a dead-band controlled capacitor charging type inverter
Simulation Modelling Practice and Theory, 17 (5), pp. 911-934, 2009.

Mechanisms of deformation localization at the tips of shear fractures: Findings from analogue experiments and field evidence
Journal of Geophysical Research B: Solid Earth, 114 (4), 2009.

Simulation studies on model reference adaptive controller based speed estimation technique for the vector controlled permanent magnet synchronous motor drive
Simulation Modelling Practice and Theory, 17 (4), pp. 585-596, 2009.

Luteal phase estradiol level: a potential predictive marker for successful pregnancy in in vitro fertilization/intracytoplasmic sperm injection
Fertility and Sterility, 91 (4), pp. 1018-1022, 2009.

CAIDSA: Computer-aided intelligent diagnostic system for bronchial asthma
Expert Systems with Applications, 36 (3 PART 1), pp. 4958-4966, 2009.
