Krishnamurthy, D., Shams, M., Far, B.H.  
**A model-based performance testing toolset for web applications**  

Far, B.H., Mudigonda, V., Elamy, A.-H.  
**A general purpose software evaluation system**  

Afsharchi, M., Denzinger, J., Far, B.H.  
**Enhancing communication with groups of agents using learned non-unanimous ontology concepts**  

Jiang, L., Eberlein, A., Far, B.H., Mousavi, M.  
**A methodology for the selection of requirements engineering techniques**  

Jiang, L., Eberlein, A., Far, B.H.  
**A case study validation of a knowledge-based approach for the selection of requirements engineering techniques**  

Wanyama, T., Far, B.H.  
**Multiagent system for integrated configuration of manufacturing products**  

**Foreword: Special section on knowledge-based software engineering**  

Far, B.H., Elamy, A.H.  
**Functional reasoning theories: Problems and perspectives**  

Wanyama, T., Far, B.H.  
**A multi-agent framework for conflict analysis and negotiation: Case of COTS selection**  

Mohamed, A., Wanyama, T., Ruhe, G., Eberlein, A., Far, B.  
**COTS Evaluation Supported by Knowledge Bases**  

Jiang, L., Eberlein, A., Far, B.H.  
**A multi-tier structured tool for requirements engineering process development**  
Far, B.H., Wahono, R.S.
**Cognitive-decision-making issues for software agents**

Onjo, H., Far, B.H.
**Implementation of a multiagent systems for competitive environments on the WWW**

Saniepour, S.E., Far, B.H., Cheng, J.
**Dynamic mirroring for efficient web server performance management**

Onjo, H., Far, B.H.
**A unified view of heterogeneous agents' interaction**

Koono, Z., Chen, H., Abolhassani, H., Far, B.H.
**Design knowledge and software engineering**

Far, B.H., Hajjl, H., Saniepour, S., Soueina, S.O., Elkhouly, M.M.
**Formalization of organizational intelligence for multiagent system design**

El-Khouly, M.M., Far, B.H., Koono, Z.
**Expert tutoring system for teaching computer programming languages**
