Gong, B.
**A modified static voltage control algorithm based on optimal multiplier method and dynamic generation characteristics**
(2011) IEEE Power and Energy Society General Meeting, art. no. 6039615, .

Gong, B., Hiskens, I.
**A stable finite horizon model predictive control for power system voltage collapse prevention**

Gong, B., Pinheiro, A., Hiskens, I.
**Optimal load shedding with the support of dynamic generation control in electric power systems**

Gong, B., Hiskens, I.
**A model predictive control strategy for dynamic voltage stability enhancement**

Gong, B.
**Dynamic generation control in support of optimal load shedding for preventing voltage collapse**

Gong, B., Pinheiro, A.
**Online voltage collapse prevention through optimal load shedding and dynamic generation control**

Gong, B., Hiskens, I.
**A model predictive control strategy for dynamic voltage stability enhancement**

Gong, B., Hiskens, I.A.
**Two-Stage model predictive control for voltage collapse prevention**

Hiskens, I.A., Gong, B.
**Voltage stability enhancement via model predictive control of load**
Hiskens, I.A., Gong, B.

MPC-based load shedding for voltage stability enhancement
