

LOBOS, Tadeusz

Wroclaw University of Technology, Poland

Selected Scholarly Contributions [Data Provided by **SCOPUS**]

Methods for fast detection of voltage sags as a crucial prerequisite for reliable operation of Dynamic Voltage Restorer
Przeglad Elektrotechniczny, 86 (1), pp. 35-37, 2010.

Computation of voltage sag initiation with Fourier based algorithm, Kalman filter and Wavelets
2009 IEEE Bucharest PowerTech: Innovative Ideas Toward the Electrical Grid of the Future, 2009.

Computation of spectral components in system with wind generation unit
2009 IEEE Bucharest PowerTech: Innovative Ideas Toward the Electrical Grid of the Future, 2009.

Adaptation of SVD and prony method for precise computation of current components in networks with wind generation
2009 International Conference on Clean Electrical Power, ICCEP 2009, pp. 624-629, 2009.

Parametric algorithms for frequency estimation in PWM converter systems
Electric Power Systems Research, 79 (11), pp. 1568-1573, 2009.

Application of wavelets and Prony method for disturbance detection in fixed speed wind farms
International Journal of Electrical Power and Energy Systems, 31 (9), pp. 429-436, 2009.

Analysis of non-stationary electric signals using the S-transform
COMPEL - The International Journal for Computation and Mathematics in Electrical and Electronic Engineering, 28 (1), pp. 204-210, 2009.

Application of advanced signal processing methods for accurate detection of voltage dips
ICHQP 2008: 13th International Conference on Harmonics and Quality of Power, 2008.

Location of faults on transmission lines using wavelet transforms
2008 International Conference on High Voltage Engineering and Application, ICHVE 2008, pp. 633-636, 2008.

Recognition of arcing faults on transmission lines [Wykrywanie zwarć łukowych w przesyłowych liniach elektroenergetycznych]
Przeglad Elektrotechniczny, 84 (10), pp. 174-177, 2008.

Power distortion issues in wind turbine power systems under transient states
Turkish Journal of Electrical Engineering and Computer Sciences, 16 (3), pp. 229-238, 2008.

Tracking of instantaneous spectrum components using time-frequency methods
2008 Conference on Human System Interaction, HSI 2008, pp. 375-379, 2008.

Application of SVD method for signal parameters estimation in systems with DFIG
2008 Conference on Human System Interaction, HSI 2008, pp. 684-688, 2008.

Measurement of IEC groups and subgroups using advanced spectrum estimation methods
IEEE Transactions on Instrumentation and Measurement, 57 (4), pp. 672-681, 2008.

Recognition of disturbances patterns correlated to equipment
Przeglad Elektrotechniczny, 83 (11), pp. 75-78, 2007.

Prony and nonlinear regression methods used for determination of transient parameters in wind energy conversion system
2007 IEEE Lausanne POWERTECH, Proceedings, pp. 1764-1769, 2007.

Power quality evaluation using advanced spectrum estimation methods
2006 International Conference on Power System Technology, POWERCON2006, 2007.

Parametric spectral estimation for power quality assessment
EUROCON 2007 - The International Conference on Computer as a Tool, pp. 1641-1647, 2007.

[Parametric Algorithms for Frequency Calculation in PWM Converters Systems](#)

2007 IEEE International Symposium on Diagnostics for Electric Machines, Power Electronics and Drives, SDEMPED, pp. 203-207, 2007.

[Analysis of influence of power quality disturbances using a neuro-fuzzy system](#)

Proceedings of the IASTED International Conference on Energy and Power Systems, pp. 182-185, 2007.

[Wind generator transients' computation using Prony method](#)

2007 International Conference on Clean Electrical Power, ICCEP '07, pp. 598-604, 2007.

[Time-frequency analysis of power distortion under fault conditions for grid connected wind turbine](#)

2007 International Conference on Clean Electrical Power, ICCEP '07, pp. 741-746, 2007.

[Neuro-fuzzy approach to diagnosis of electrical networks operation](#)

41st International Universities Power Engineering Conference, UPEC 2006, Conference Proceedings, 2, pp. 650-654, 2006.

[Measurement of IEC groups and subgroups using advanced spectrum estimation methods](#)

Conference Record - IEEE Instrumentation and Measurement Technology Conference, pp. 1015-1020, 2006.

[Analysis of traction system time-varying signals using ESPRIT subspace spectrum estimation method](#)

IECON Proceedings (Industrial Electronics Conference), pp. 3424-3427, 2006.

[Automated classification of power-quality disturbances using SVM and RBF networks](#)

IEEE Transactions on Power Delivery, 21 (3), pp. 1663-1669, 2006.

[Classification of power quality disturbances using RBF and SVM neural networks](#)

Przegląd Elektrotechniczny, 82 (3), pp. 51-54, 2006.

[High-resolution spectrum-estimation methods for signal analysis in power systems](#)

IEEE Transactions on Instrumentation and Measurement, 55 (1), pp. 219-225, 2006.
